## GENERAL

This vessel, designated ST-261 OCV, is a Multipurpose Offshore Construction Vessel specially designed for operation under severe weather conditions and with high maneuverability and station keeping capabilities.

The vessel will be outfitted and prepared for the following duties:

- Pipelaying or cablelaying from carousels with VLS through moonpool or over stern
- ROV operations like pipeline / route survey.
- Subsea installation work through moonpool and over shipside
- Crane operations for bottom positioning of modules
